EXPERIENCE SUPERIOR
SATELLITE INTERNET
**MORTALK VOIP
PACKAGES**

One of the advantages of subscribing to MorClick Satellite Internet is that you can make phone calls using your MorClick Satellite internet connection! So say goodbye to your old copper landline (and copper theft problems) and make use of our call-enabling VoIP technology, MorTalk, instead.

Our VOIP service has a fixed monthly fee with no billing surprises! You simply choose the monthly bundle that suits your budget:

480/pm

Up to 1000 minutes per month
R460 Airtime + R20 Rental Subscription

265/pm

Up to 500 minutes per month
R245 Airtime + R20 Rental Subscription

120/pm

Up to 200 minutes per month
R100 Airtime + R20 Rental Subscription

First month subscription FREE. T's & C's Apply.

THE ADVANTAGES OF VOIP:

- Lower call costs
- Clearer voice quality
- Easy to use
- No landline required
- No mobile reception required
- Unused funds will be carried over for two months

GET TALKING NOW BY FOLLOWING THESE FIVE EASY STEPS:

- Upgrade your data package to include one of our a satellite VOIP enabled service options

- Select and purchase a phone (if you don't already have a VOIP phone)
- EFT us your payment on the invoice we send you for your new phone
- Pick your VOIP (from the options above)
- Accept your contracts

Upon contract acceptance, you will receive an SMS with your new number, password, and pro-rata start amount for the month! Your phone will be configured and couriered to you - ready to use.

WHAT IS A VOIP (VOICE OVER INTERNET PROTOCOL) TELEPHONE SERVICE?

VOIP is a service that operates with a special type of phone called an IP Phone. This phone is programmed and plugged into your modem connected to your MorClick satellite service via a standard ethernet cable.

FREQUENTLY ASKED QUESTIONS

Q: Do I need a voice channel on my satellite service for VoIP to work?

A: Yes, the voice channel prioritizes the call on the network to provide a clear quality call.

Q: What is the difference between a Whatsapp call and a VoIP call?

A: VoIP receives preference on the network with minimal delay on the call. In addition, with VoIP, you can make calls to any destination in the world and, you are not limited to only calling other Whatsapp users.

Q: How do I get a VOIP phone?

A: MorClick will provide you a pre-programmed phone and send it out to you, ready to be plugged in. Alternatively, you can buy your own VOIP phone that you will need to programme yourself.

Q: What data connection do I need?

A: MorClick has special VOIP-enabled products designed in a way that does not interfere with your voice channel(s). Your current MorClick data package has a VOIP enabled option that your dealer can assist with.

Q: What happens to my unused bundle if I cancel my contract?

A: All unused airtime will be forfeited at end of a contract.
